## Board Members-

Please work to come to a reasonable and workable solution to keep Two-Day Town from ending its long run at Del Valle. My wife and I have enjoyed attending for about 10-years- We are non-musicians and come for one day-Saturday & have always found the atmosphere to be great and the many volunteers doing their best to make this event enjoyable while respecting the park. We particularly like the acoustic performers-sing along under the trees and the drum circle and walks around the park during "Quiet Time".

This has always been a unique event which makes living in the East Bay special. Please help keep it going!!
