GT

Good Afternoon,

I am writing to let you know as a life long resident, a father, grandfather, great-grandfather, Eagle Scout, and lover of the out doors, how much Two Day Town means and has meant to me

My wife and I discovered Two Day Town at its first inception as Festival Del Arroyo in 1998. My wife, being a Girl Scout Troop Leader, found an ad looking for volunteers and immediately offered her troop as volunteers knowing it was a perfect way to involve her troop in teaching community service, strong morals and traditional values.

The points that attracted us both of us is the motto
Family Camping, Community Music and "LEAVE NO TRACE"

Two Day Town has given us the opportunity to teach these values to our children, grandchildren and yes, even our great grand children

We have all 5 generations enjoy the wonderful times together in this beautiful environment
Over the past twenty years we have had the unique experience of creating a space to encourage personal growth. Having educational activities such as Doc Hale's Nature Walks is such a blessing. Family Camp, where children and adults can express themselves artistically, priceless

I don't know of any other event where you can do and experience all of these things, without commercialism and have a positive impact

It would be a true loss to have Two Day Town come to an end

Sincerely,

Kinney Tennis
