Addressing the Board Members for East Bay Regional Park District:

I fervently request that you reconsider the many added restrictions you have presented the Two Day Town 2023 committee.

Attendees over the years have made every effort to respect the environment Del Valle Lake offers to accommodate Two Day Town. Our families and friends, our children and grandchildren have grown up meeting one another here at this annual event. Musical talent has blossomed. Life-long friendships have been formed.

The theme of the event has always been "Leave No Trace". What philosophy could be more fitting to demonstrate to our youth than to impress upon them a theme to be practiced for a lifetime?

Safety, Respect, Camaraderie, Music, Sharing, Caring, Giving, and Commitment are all qualities exemplified at Two Day Town.

We demonstrate the theme we value by leaving the park meticulously clean when we are done.

It takes far more than one day for volunteers to make ready for this event. Please understand the need for at least two days of preparation. Even with two 12 hour days, Friday is still a squeeze to complete all the tasks required.

One of the most important features offered and enjoyed at Two Day Town is the assembling of musicians who come to share their talent over this three day event. It is imperative that we be allowed to continue playing music past 10 PM.

We honor your desire to protect this beautiful facility and your wish to keep it available to the community you serve.

So do we...

Lynda Hadley
